## **DETAILED ACTION**

### ***Examiner's Amendment***

1. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. §1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

2. The application has been amended as follows:

**In claim 1**, last line; delete duplicate words --with said--  
as shown on the attached page.

### ***Reasons for Allowance***

3. Claims 1-20 are allowed.

**4. Examiner's Statement of Reasons for Allowance:**

Applicant's invention relates to a power generating system, and more specifically, to a power generating system attached to a bicycle.

The system has a structure for positioning and supporting a bicycle, and for engaging its rear tire with a generator for generating an electrical power by the muscles of the bicyclist, as disclosed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant's invention differs from the prior art of record by **the means** for supporting the bicycle and the generating structure, and for maintaining a frictional engagement of the bicycle rear tire with the generator, which was interpreted by the examiner as it is disclosed in the specification and the drawings, which is performing as is claimed, and which examiner's search failed to find.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
